1  # =====
2  #                               UNIT CONVERSION APPLICATION
3  # =====
4  # This program is a menu-driven unit conversion application.
5  # It supports multiple types of unit conversions.
6  #
7  # Conversion Categories:
8  # 1. Length
9  # 2. Weight / Mass
10 # 3. Temperature
11 # 4. Time
12 # 5. Area
13 # 6. Volume
14 # 7. Speed
15 # 8. Digital Storage
16 # 9. Data Rate
17 # 10. Pressure
18 # 11. Energy
19
20 # The program also contains:
21 # - Input validation
22 # - Error handling
23 # - Repeated conversion option
24 # - Main menu
25 # - Comments for easy understanding
26 # =====
